

Lucia Shelley
Director of Student Teaching
University of Mary

Dear Ms. Shelley,

It is my privilege to write this letter of recommendation for Kaycee Luke to be accepted for a student teaching position in the spring of 2017. Kaycee has been a tutor in my remedial summer school class for the past six weeks.

I have found her to be willing to work with any student whom she encounters. She has had experience working with students who are English Language Learners, students with learning disabilities and autism, and students who needed continued programming over the summer to close the gap. Kaycee was on time and presented herself as an appropriate role model and pre-professional with the students in her actions, dress, and communication.

The students enjoyed working with her, and she had a pleasant disposition and was always positive with them. Kaycee did a nice job with interacting with our students during free time and engaged in conversation with them. She was willing to come up with new ideas to work with our English Language Learner who had limited English. Kaycee did a nice job of redirecting students if they were off task and was always willing to help them.

Again, it is my privilege to recommend Kaycee Luke for a student teaching position in the spring of 2017. If you have any further questions please feel free to contact me at my work number (323-4600 Ext. 5376).
